Thanks to "All-In-One" technology, the Ledmodea LM-KU1 integrates a high-tech keyboard and almost unlimited memory storage to create a powerful DMX512 lighting controller.

Ledmodea LM-KU1 -□ a new worldwide standard.□ This complete stand alone wall-mounted DMX controller is the perfect answer to interior lighting control expectations. Along with a state of the art design, the product comes with amazing features such as 1024 DMX

channels, touch sensitive panel, clock/calendar, remote control, Ethernet facilities, and much much more....

Simply screw the LM-KU1 back plate onto a single or double gang wall socket, connect the power and □ □ DMX cables to the LM-KU1 block connector, then clip the LM-KU1 onto the wall.□

The LM-KU1 supports up to 5 Areas across 25 pages. This allows you to split up a room or a building and play up to 5 different scenes simultaneously. For example, you could have:

Area A: Control over the ambient lighting of a room, such as some single channel halogens

Area B: A subtle color changing effect playing on LED bars in the ceiling

Area C: Some static colors used on floor lighting

Area D: Control of the wall lighting

Area E: A global override which controls everything

The Ledmodea LM-KU1 includes an Ethernet network connector allowing you to connect your LM-KU1 to a Local Area Network (LAN). Once connected, the unit can be controlled from the LM-KU1

remote app or programmed using the

Arcolis
app for Apple
iOS
and Google Android devices.
